

PRODUCT INFORMATION

Series	: XK870X
Backing	: Heavy X-weight polyester backing
Bonding	: Resin over resin with grinding additives (top size)
Grain / Coating	: Ceramic alumina
Grit Range	: 24 – 120
Manufactured Width (in)	: 58
Abrasive Types (Forms)	: Narrow and wide belts
Raw Material	: Alloyed steel, anti-corrosive, acid and heat resistant steel
Workpiece	: Containers, turbine blades, extrusion parts, food industry equipment
Sanding/Grinding Operation	: Contact grinders
Market Segment	: Turbine blades and propeller production, metalworking industry
Advantages	: • High cut rate at medium contact pressures • Cool cut
For further information	: Please contact the Technical Service Department
